## RESUME OBJECTIVE

---

I'm a **Full-Stack MERN Developer** with **1+ year of experience** in React, Next.js, Express.js, and full-stack web development.

I've worked on projects including **e-commerce platforms**, **customer feedback systems**, and **AI-powered RAG (Retrieval-Augmented Generation)** applications.

My expertise includes integrating **OpenAI APIs**, implementing **LangChain workflows**, and developing **data ingestion pipelines** for real-world automation.

I have a strong grasp of **object-oriented programming (OOP)**, **data structures**, and **database design (MongoDB, MySQL)** — along with foundational experience in **PHP, WordPress, and Laravel**.

Currently, I'm focused on **AI-driven full-stack development**, specializing in **LLM orchestration**, **RAG pipelines**, and **vector database integration**
